“I FISH NY” FISHING & CRABBING CLINIC

This free clinic will focus on both snapper and crab fishing techniques and some fish and crab biology, with plenty of time to hopefully catch your dinner, or simply enjoy the summer evening by the water. Loaner saltwater rods will be provided if needed, but crab pots and crab bait will be limited, so, if you have these items, bring your own crab net/pot, crab bait, such as cheap fish or chicken pieces, and a bucket. General parking is free for Town of Brookhaven residents with parking passes. Metered parking is available for all others.

 SummerFun@BrookhavenNY.gov

PLEASE NOTE:

*Summer Fun is a fast paced, group-oriented, social, hand-on experience that can have a positive impact on children. All activities are conducted through full group instruction, made up of approximately 20-30 children. To maintain safe staff/counselor ratios our counselors do not provide individualized or small group activities. Campers need to stay within their group during all activities of the daily rotation. Group instruction requires each child to have a level of independence to participate in all activities. Additionally, campers need to feel comfortable advocating for themselves if they are injured or not feeling well. Our counselors do not have the training to implement individualized plans. Our program follows structured expectations similar to a school setting but does not have school related professionals such as nurses, school psychologists, behavior specialists, 1:1 aide, etc. Campers are under the direction of their camp counselors and site supervisors. They need to follow instruction from the counselors and follow behavior guidelines. Although our counselors are not trained to provide one-on-one or small-group instruction, we are available to discuss reasonable accommodations to support children with disabilities in accordance with the **Americans with Disabilities Act (ADA)**, including but not limited to, being accompanied by support staff.*
